FOR IMMEDIATE RELEASE

BORN AGAIN!

-The Arbortech AS 160 Diamond Sharpening Disk

PERTH, Western Australia, March 30. **Arbortech has just launched a diamond sharpening disk for the AS160 Brick + Mortar Saw. Professionals can now sharpen their own blades, increasing performance, extending blade life and reducing load on the motor.**

Imagine slowly losing your eyesight. As it happens over an extended period of time, you get used to it and don't really notice until you put on a pair of correct spectacles and Eureka! You can see everything so clear again!

With the AS160 Brick + Mortar Saw blades this very same thing happens, the blades slowly blunts and it is hard to notice until you suddenly try a sharp pair of blades. Using blunt blades reduces performance and places a lot of unnecessary load on the motor. That is why Arbortech are now launching the AS160 Diamond Sharpening Disk!

The 100mm/4" diamond sharpening disk is designed to fit any 100mm/4" or 115mm/4 1/2" angle grinder, and is used to sharpen our AS160 Brick + Mortar Saw blades by hand.

The benefits of using sharp blades with our AS160 Brick + Mortar Saw can not be emphasized enough:

- Increased performance
- Extended blade life
- Reduced load on motor

The image shows the Arbortech logo in orange and black, with the website address www.arbortech.com.au below it. To the right, there are images of various power tools, including a woodcarver blade and a diamond sharpening disk, with the word 'ARBORTECH' embossed on one of the tools.

ABOUT ARBORTECH

Arbortech is an Australian company engaged in the research, development and manufacturing of innovative technologies. **Arbortech** was incorporated in 1988 with the release of the Woodcarver™ Blade, a revolutionary product that allows the user to powerfully shape wood using free-hand techniques. Primarily known for its cutting technologies as featured in the Award-winning AS160, **Arbortech** also gained international recognition for its development of the Airboard™, a unique personal hovercraft that featured in the Sydney 2000 Olympics Opening Ceremony. Since its first product release, **Arbortech** has positioned itself in the marketplace as a progressive company delivering unique woodworking and masonry cutting power tools. Arbortech has gained an international reputation for an innovative approach, engineering excellence and cutting-edge technologies in already well-established industries.
